

Brown County Household Hazardous Waste

Disposal Guide

Don't throw this stuff in the trash. All of it poses a threat to people and the environment or both if not disposed of properly. Most of these items can be dropped off during the Brown County Household Hazardous Waste Collection dates.

Household Items

- Aerosol Products
- Drain Cleaners
- Fire Extinguishers
- Mothballs
- Nail Polish/Remover
- Oven Cleaner
- Polish with Solvents
- Toilet Cleaner
- Rechargeable, Nickel Cadmium, Lithium Ion or Button Batteries
- Bleach
- Thermometers (mercury) or mercury containing thermostats

Home Improvement Items

- Latex Paint
- Oil-Based Paint
- Stain, Varnish, Lacquer
- Paint Thinner
- Turpentine
- Furniture Stripper
- Paint Remover
- Wood Preservatives
- Roofing Tar
- Driveway Sealer
- Glue with Solvents
- Putty, Grout, Caulk
- Concrete Cleaner
- Glaze, Spackle

Automotive Items

- Auto Batteries
- Antifreeze
- Brake Fluid
- Degreasers
- Transmission Fluid
- Carburetor Cleaners
- Windshield Washer fluid
- Auto Paint
- Gasoline/Fluids

Lawn & Garden Items

- Weed Killer
- Insect Killer
- Roach & Ant Killer
- Rodent Bait
- Bug Spray
- Fertilizer with Weed Killer
- Pool Chemicals
- Lighter Fluid

NON-Toxic Cleaning Recipes

All-purpose cleaner

- 1/4 cup white vinegar
 - 2 tsp. borax
 - 3 1/2 cups hot water
 - 20 drops lemon or lavender essential oil
 - 1/4 cup liquid dish soap
- In a 32-oz. spray bottle, mix the vinegar, borax, and water thoroughly. Add essential oil if desired. Add dish soap last.

Floor cleaner

- 1/8 cup liquid soap
 - 1/4 to 1/2 cup white vinegar or lemon juice
 - 1/2 cup herb tea (Peppermint has antibacterial qualities.)
- Combine ingredients in pail with 3 gallons of warm water. Swirl until it is sudsy. Rinse with 1 cup of vinegar in 3 gallons of cool water.

Wood floor cleaner

Use 1/2 cup vinegar per gallon of water. Wipe dry.

Wood cleaner

- 1/4 cup white vinegar
- 1/4 cup water
- 1/2 teaspoon liquid soap
- a few drops olive oil

Combine the ingredients in a bowl, saturate a sponge with the mixture, squeeze out the excess, and wash surfaces. The smell of vinegar will dissipate in a few hours.

Furniture polish

- 1/2 teaspoon olive oil
 - 1/4 cup vinegar or lemon juice
- Mix the ingredients in a glass jar. Dab a soft rag into the solution and wipe onto wood surfaces.

Carpet spot remover

Blot immediately. Sprinkle with baking soda, cornstarch, or borax and let dry. Wash with club soda and vacuum.

Window cleaner

- 1/4 cup white vinegar
 - 1/2 teaspoon liquid soap or detergent
 - 2 cups water
- Combine the ingredients in a spray bottle, and shake to blend.

Oven cleaner

- 1 cup or more baking soda
 - a squirt or two of liquid soap
- Sprinkle water generously over bottom of oven, then cover the grime with enough baking soda so surface is totally white. Sprinkle more water over top. Let sit overnight. Wipe up the grease the next morning; then with a bit of liquid soap on a damp sponge, wash remaining residue from the oven.

Soft scrubber; Basin, tub and tile

- 1/2 cup baking soda
 - enough liquid soap or detergent, to make frosting-like consistency
 - 5 to 10 drops antibacterial essential oil, such as lavender (optional)
- Place baking soda in bowl; slowly pour in liquid soap, stirring continually. Add essential oil. Scoop mixture onto sponge, wash surface, and rinse. (Bon Ami is another option.)

Rust remover for sinks and tubs

Sprinkle a little bit of salt on the rust, squeeze a lime over the salt until it is nicely soaked in lime juice. Leave the mixture on for two or three hours. Use the leftover rind as a handy scrubber. Rust is gone.

Unclog and deodorize drains

Sprinkle a generous amount of baking soda in and around the drain opening. Follow with a cup of white vinegar. Repeat if needed, and finally flush with very hot water.

Toilet bowl cleaner Use Bon Ami cleanser with a non-scratching scrubber sponge.

Bacteria, mold, and germs A straight 5% solution of vinegar – such as you buy in the supermarket – is effective for eliminating harmful bacteria, mold, and germs. Keep a spray bottle of vinegar in your kitchen and in your bathroom.

Borax, non-chlorine bleach, and washing soda can be used by themselves as household cleaners and laundry products in accordance with label directions. They can also be mixed with certain other products for certain uses. All of these products are harmful if swallowed. Washing soda is not the same as baking soda and should not be used in place of baking soda.

Brown County does not collect light bulbs, electronic waste or household appliances at the HHW Collection. There are separate collection events for light bulbs throughout the year or they can be recycled locally at any time. Electronic waste and appliances can be recycled at the Brown County Landfill.

If you have further questions, please contact Brown County Recycling at: (507) 233-6641
